github.com/saqibahmadsiddiqui | saqibahmadsiddiqui.vercel.app

PROFILE

Results-driven AI/ML and Software Engineer with hands-on experience in Python, SQL, and Oracle Database. Specialized in Artificial Intelligence and Data Science, with practical knowledge of Machine Learning, data analysis, and database optimization. Proven ability to design and deliver efficient, scalable solutions while collaborating effectively across teams. Passionate about leveraging data-driven insights and emerging AI technologies to solve complex problems and drive growth.

SKILLS

- **Programming Languages:** Python, Java, JavaScript, SQL
- **Backend:** FastAPI (Python), RESTAPI
- **Databases:** Database Design, Oracle DB, SQL Query Optimization
- **AI/ML:** Pandas, NumPy, Scikit-Learn, Matplotlib, ML Fundamentals
- **Frontend:** Next.js 14, TypeScript, Tailwind CSS
- **DevOps:** Git, CI/CD, MLOps
- **Tools:** Jupyter Notebook, Google Colab, VS Code, GitHub, Hopsworks, Oracle EBS, Oracle APEX, Form Builder, Report Builder

PROFESSIONAL EXPERIENCE

Data Science Intern | 10Pearls | December 2025 - February 2026

- Applied data science techniques to analyze and derive insights from real-world dataset
- Developed and evaluated machine learning models using Python, Pandas, NumPy, and Scikit-Learn
- Communicated with others to understand problem requirements and deliver data-driven solutions
- Performed EDA, data preprocessing, and feature engineering, and on large dataset
- Assisted in building and deploying ML pipelines as part of end-to-end data science workflows

ERP Intern | US Group - Corporate Head Office | July 2025 - August 2025

- Developed and integrated reports and forms using Oracle EBS and Oracle APEX
- Wrote and optimized SQL queries for database design and Oracle SQL database operations
- Supported Oracle Forms and Oracle Reports integration and customization
- Built cross-platform website using Oracle APEX

PROJECTS

AQI Forecasting System | multan-aqi.streamlit.app | github.com/saqibahmadsiddiqui/aqi-forecasting-system

- Built a data science application that predicts the average Air Quality Index (AQI) of Multan in categories 1 to 5 for the next 3 days
- Implemented five machine learning models that retrain daily on live data from May 2025 to the current date, with automatic best-model selection based on F1_Score
- Designed and deployed a full MLOps pipeline using Hopsworks for feature store and model registry, deployed on Streamlit Cloud
- **Tech Stack:** Python, Pandas, NumPy, Scikit-Learn, MLOps, Hopsworks, Streamlit, FastAPI

Personal Portfolio Website | saqibahmadsiddiqui.vercel.app | github.com/saqibahmadsiddiqui/portfolio

- Developed a fully dynamic, open-source portfolio website with an admin dashboard for managing all content without code changes

- Built a RESTful backend API using FastAPI (Python) with PostgreSQL (NeonDB) for persistent storage of profile, projects, skills, and experience data
- Designed a responsive frontend using Next.js 14, TypeScript, and Tailwind CSS; integrated email validation via ZeroBounce API and contact notifications via Nodemailer
- Deployed frontend on Vercel, backend on HuggingFace Spaces (Docker), and database on Neon; implemented CI/CD practices for automated deployment
- **Tech Stack:** Next.js 14, TypeScript, Tailwind CSS, FastAPI, Python, PostgreSQL, NeonDB, Vercel, HuggingFace Spaces

EDUCATION

Bachelor of Science in Computer Science

NFC Institute of Engineering & Technology | 2022 - 2026

- Final Year Student (8th Semester)
- **CGPA:** 3.90 / 4.00
- **Relevant Coursework:** Programming Fundamentals, OOP, Data Structures & Algorithms, Design and Analysis of Algorithms, Database Systems, Operating Systems, Software Engineering, Probability and Statistics, Linear Algebra, Artificial Intelligence, Parallel & Distributed Computing, Natural Language Processing, Machine Learning, Data Science & Big Data Analytics.

CERTIFICATIONS

Business Communication & AI for Professionals

- Issued by LUMSx & PepsiCo
- Topics covered: Professional communication strategies, AI tools in workplace productivity, and business writing

Beginners Meetup - Career Counseling Event

- Organized by Microsoft Learn Student Ambassador (MLSA) - Multan Chapter
- Participated as an attendee in career development and tech community outreach activities to communicate and network with students, working professionals and organizers.
